- Computer Skills   : MS Office

PROJECT EXPERIENCE:

PREDICTION OF ENGINEERING COLLEGE ADMISSIONS USING MACHINE LEARNING TECHNIQUES

ABSTRACT: Students face a lot of difficulties to secure an admission in the college of their choice. The current scenario of an engineering admission process is a little complicated and thus often students end up getting less deserved college. The college admission predictor uses historical colleges cut-off student admission data for predicting the most probable colleges. The system analyzes student academic merits, background, and college admission criteria. The system would enable the student to prepare the list of colleges which could be needed to be filled in during the admission process**.**

Technologies Used: Machine Learning, Web Development, MySQL.

PERSONAL PORTFOLIO WEBSITE:

I had done a project in the domain of full stack to develop my Portfolio Web site using HTML, CSS, Java Script for showcasing my Achievements, Projects, Certifications and my Details.
